2021 School Accountability Report Card

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2021-22 School Overview

Grizzly Hill School is a public K-8 school located in the historically significant area known as “Columbia Hill” in the town of North Columbia. The school is a traditional school that serves the greater San Juan Ridge community. The nationally renowned North Columbia Schoolhouse Cultural Center is a brisk walk away from the campus. Grizzly Hill received California’s Distinguished School award in 1990. It was one of six sites statewide deemed as a dissemination site for Language Arts instruction.

Grizzly Hill School is dedicated to providing a rich, nurturing learning environment to promote the development of student character, academic excellence, and positive attitudes for life-long success.

The entire Twin Ridges Elementary School District values:

- Educational practices that operate on the principle that success fosters self-esteem and self-esteem fosters success.
- A belief that each student is gifted because each student is a gift.
- A dedication to practices that are inclusive and relevant.
- Educational practices that focus on high standards utilizing cohesive and rigorous, research-based curriculum, instruction and assessment,
- A traditional and innovative approach that integrates a broad curriculum, including the fine arts, service and knowledge and celebration of place.
- A deep fostering of creativity to promote academic growth and development of self.
- Recognition and integration of diversity as a source of strength.
- Celebration of academic, social, emotional, physical and cultural development of students.

Twin Ridges will promote this learning through the arts, technology, community service, place-based projects, and through traditional methods of instruction. The schools collaborate with local agencies and organizations to create ties between the district and the community.

Grizzly Hill School boasts one of the best computer technology programs in Nevada County. Our 5th through 8th grade students have individual laptops within their classrooms. The kindergarten through 4th grade students have access to a computer lab within the library. All classrooms are equipped with document cameras and LCD projectors. The school offers

2021-22 School Overview

several electives on a rotating basis. Classes this year included, bike maintenance and trail building, cooking, art, gardening and environmental science. Sports returned to Grizzly Hill School this year for the first time in many years. We provided a flag football team and played several home games that were well received in the community.

Grizzly Hill School is dedicated to being the “Greenest” school in the county. The school completed a major solar project that now provides almost 97% of our electricity. Our food program is second to none and provides our students with as much local and organic food as possible.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>

Total Teaching Positions	

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

2020-21 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment. The CDE will populate this table for schools in cases where the school administered the CAASPP assessment. In cases where the school administered a local assessment instead of CAASPP, the CDE will populate this table with “NT” values, meaning this school did not test students using the CAASPP. See the local assessment(s) table for more information.

2020-21 Types of Services Funded

Having entered into Program Improvement, the school administration and staff began to look into all local as well as state data to determine the potential weaknesses of our programs. It was our determination that we had to focus our efforts and resources in both Mathematics and English Language Arts. In order to provide the teachers with the tools required to improve our delivery of instruction, we negotiated minimum days every Wednesday to offer in-service, collaboration, meetings and professional development. In addition, the district added three more days to the teacher's calendar for the same purpose. All teachers were given instructional aides to assist them within their classrooms. Our adult to student ratio is now under ten to one. Finally, the district hired a full time Intervention Specialist that upon the recommendation of the teacher would pull out struggling students to work with one-on-one or in small groups. These strategies proved to be successful and our Academic Performance Index rose 119 points that resulted in the school entering "safe harbor".

2019-20 Teacher and Administrative Salaries

Professional Development

- Local as well as state student data was used to identify areas in need of instructional improvement. It was determined that we needed to spend more time and resources in both Mathematics and English Language Arts.
- Professional Development has been delivered in a variety of ways. We hired an expert to deliver training on Step-Up to Writing to our certificated staff on site during minimum days. The county office of education put on county-wide collaborations in both Mathematics and English Language Arts. The district provided subs for the days of these collaborations. Staff meetings were held for school wide planning and collaboration. Additional teacher days were used for further professional development.
- District teachers have been supported by providing time for planning and professional development. Every Wednesday is a minimum day for students. Three additional days were added to the teacher's calendars to provide the time necessary for planning and Professional Development. Data has been used to determine areas of focus and information on where to direct all resources available to provide the best educational service to our students.

This table displays the number of school days dedicated to staff development and continuous improvement.

2020-21 Local Accountability Report Card (LARC) Addendum

Local Accountability Report Card (LARC) Addendum

2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
